

Komunity Marketing Strategy

Your community. Transparent. Safe. Together.

Platform Summary

Komunity is a transparent group wallet & community finance platform built for African communities — specifically stokvels, burial societies, churches, sports clubs, and professional associations. It eliminates money drama by making every rand visible to every member.

Key differentiators:

- Full financial transparency (every member sees every transaction)
- No bank account needed (voucher top-ups from Shoprite, Pick n Pay; mobile money withdrawals)
- Biometric security
- Fundraising / emergency campaigns
- WhatsApp-native onboarding

Target markets: South Africa → Zimbabwe, Kenya, Nigeria, Ghana → African diaspora in UK & USA

Target Audiences (Personas)

Persona	Profile	Core Pain	What Komunity Fixes
Stokvel Admin	30–55 years woman, runs 8–20 years person savings group	Chasing contributions every month, trust disputes	Auto-reminders, transparent ledger

Burial Society Chair	40–65 community elder	Treasurer fraud fears, manual record-keeping	Multi-sig wallet, full audit trail
Church Treasurer	35–60 yo, faith leader	Congregation demanding financial accountability	Real-time reporting, campaign tracking
Sports Club Manager	25–45 yo, amateur or semi-pro	Collecting membership fees from 30+ players	Mobile pay, instant dashboard
Student Society Leader	18–25 yo, university	Stolen funds from dishonest treasurer	Member-visible ledger, no single-point control
Diaspora Group Leader	28–50 yo, UK/USA-based	Managing money for community back home	Cross-border, multi-currency support

Core Marketing Message

"End the money drama in your community."

Supporting messages:

- *"If everyone can see it, no one can steal it."*
- *"Stop chasing. Start trusting."*
- *"Built for how Africa actually saves."*
- *"The only app where your whole stokvel is the treasurer."*

Go-To-Market Strategy

Phase 1: Waitlist & Pre-Launch (NOW)

Goal: Hit 10,000 waitlist signups; activate founding member FOMO

Phase 2: Soft Launch (Month 1–3)

Goal: Onboard 500 founding groups, collect social proof

Phase 3: Growth (Month 4–12)

Goal: 5,000 active groups; organic referral engine firing

Channel Strategy

1. WhatsApp Marketing (💧 Highest Priority)

WhatsApp is the operating system of African community life. This is your #1 channel.

Tactics:

- **WhatsApp Business API** — Send contribution reminders, campaign updates, and onboarding flows directly in WhatsApp
- **Viral invite links** — "Share via WhatsApp" is already on your waitlist page. Make the message more compelling:

"I'm tired of the drama at stokvel. Found this → [komunity.app](#)"

- **WhatsApp Communities** — Build an official Komunity Community for admins to share tips, success stories, and peer support
- **Status content** — Create shareable WhatsApp status cards (transparent, branded) showing group savings milestones
- **Referral chain** — "Share with 3 people from your stokvel, skip to the front of the waitlist"

Tools: WhatsApp Business API (Meta for Developers), WhatsApp Cloud API, Wati.io or Respond.io

2. Social Media

Facebook (Priority: High)

Facebook groups ARE African community digital life — burial societies, stokvels, and churches all have active groups.

- **Targeted Facebook Ads** targeting:
 - Interests: Stokvel, burial society, savings group, church community
 - Behaviours: Mobile money users, Shoprite shoppers
 - Demographics: SA women 30–55, township & peri-urban areas
- **Facebook Group seeding** — Post value-first content in existing stokvel & burial society groups (not spam — genuine advice)
- **Facebook Page** with trust-building content: "5 signs your stokvel treasurer is hiding money" type educational posts
- **Retargeting** — Pixel on waitlist page, retarget everyone who visited but didn't sign up

TikTok (Priority: Medium-High)

Viral potential is huge. "Stokvel drama" content gets millions of views.

- **Relatable drama videos** — Recreate common stokvel/burial society conflict scenarios, then show how Komunity solves it
- **Stitch / Duet** popular "money drama" content from creators
- **Creator partnerships** — SA personal finance creators: @moneywithmofe type accounts
- **"Day in the life of a stokvel admin"** — Before/After with Komunity

Instagram (Priority: Medium)

- **Reels** repurposed from TikTok

- **Aesthetic infographics** — "12 million South Africans are in stokvels. Zero have a transparent app. Until now."
- **Story highlights** for testimonials, features, and how-it-works

LinkedIn (Priority: Low-Medium)

- **Thought leadership** — "Why African community finance is an underserved \$50B market"
- Target professional associations, HR professionals at corporates (employee stokvels)
- Reach investors and fintech ecosystem

3. Influencer & Creator Marketing

Tier 1: Macro-influencers (100k+)

- SA personal finance YouTubers and podcasters
- Target: Moneyweb, The Money Show (SAFM), personal finance content creators
- **Pitch:** "Be the first to feature the app that could end stokvel drama in SA"

Tier 2: Micro-influencers (5k–100k) — Most Cost-Effective

- Stokvel group admins with followings
- Church social media managers
- Community-focused lifestyle creators
- **Offer:** Free premium account for 6 months + affiliate commission per group they onboard

Tier 3: Community Champions (Nano, <5k)

- Real stokvel admins, burial society chairs
- **Offer:** "Founding Member" badge, early access, featured on website
- Their word-of-mouth to their own groups is the most trusted marketing you'll ever get

4. Content Marketing

SEO Blog (low-cost, high long-term value)

Target keywords:

- "stokvel app South Africa"
- "burial society management software"
- "how to start a stokvel"
- "church fundraising app South Africa"
- "group savings app Africa"
- "stokvel fraud prevention"

Content pillars:

1. **Education** — "How to run a stokvel properly" (attract admins)
2. **Problem-aware** — "Signs your stokvel treasurer is stealing" (create urgency)
3. **Solution** — "How Komunity makes your stokvel transparent"
4. **Community** — "Top 5 stokvel savings tips from South African women"

YouTube

- Tutorial videos: "Set up your stokvel on Komunity in 5 minutes"
- Documentary-style: "Inside South Africa's R50 billion stokvel economy"
- Explainer animations: "What is a burial society, and why they need Komunity"

5. PR & Earned Media

Target publications:

- **Business Day, Daily Maverick, Moneyweb** — "Fintech startup building transparency for SA's R50B stokvel economy"
- **Drum Magazine, True Love** — Reach women stokvel admins directly
- **City Press, Sunday Times** — Mass market community reach
- **TechCabal, Disrupt Africa, Ventureburn** — African tech ecosystem credibility

Story angles:

- *"The app that could prevent stokvel fraud"* — Problem-focused, very newsworthy
- *"Two entrepreneurs building fintech for communities banks forgot"* — Founder story
- *"Inside SA's R50B informal savings economy — and the app digitising it"* — Market size story

6. Community-Led Growth (Most Powerful Long-Term)

This is your **secret weapon**. Each group that joins brings 8–20 members who then tell their OTHER groups.

Referral mechanics:

- **Skip the waitlist** — Share with 3 group members → move to the front
- **Group referral program** — Every group you refer = 1 extra month free premium
- **"Founding Member" status** — Badge on profile, featured on website, exclusive Discord/WhatsApp community
- **Milestone sharing** — "Your stokvel just saved R50,000 on Komunity! Share this milestone" → auto-generated shareable card

7. Partnerships

Partner Type	Example Partners	Value
Retailers	Shoprite, Pick n Pay, Checkers	Voucher top-up partners = co-marketing opportunity
Mobile Networks	MTN, Vodacom, Cell C	Withdrawal partners = bundled data deals for community groups
Banks	Capitec, FNB, TymeBank	Community savings product integration
NGOs / Government	SEDA, SASSA, Dept of Trade	Financial inclusion mandate alignment
Churches	Pentecostal networks, Catholic dioceses	Direct access to thousands of organized groups

Universities	SRC organizations, student affairs offices	Student society market
---------------------	---	------------------------

Paid Advertising Strategy

Facebook/Instagram Ads (Primary)

Campaign 1: Awareness (Problem)

- Headline: *"Is your stokvel treasurer hiding something?"*
- Creative: Relatable drama scenario
- CTA: Learn More → Landing page

Campaign 2: Consideration (Solution)

- Headline: *"What if every stokvel member could see every rand?"*
- Creative: App demo / walkthrough
- CTA: Join Waitlist

Campaign 3: Conversion (FOMO)

- Headline: *"First 500 groups get 6 months FREE"*
- Creative: Countdown timer + testimonial
- CTA: Claim Your Spot

Targeting:

- Primary: SA women 28–55, township & suburban
- Secondary: Men 25–50 running clubs/associations
- Tertiary: African diaspora in UK/USA (18–55)

Budget recommendation:

- Start small: R2,000–R5,000/month to test creatives
- Scale winners: Double budget on best-performing ad sets

Key Metrics to Track

Metric	Target
Waitlist signups	10,000 before launch
WhatsApp shares per signup	> 1.5
Cost per waitlist signup	< R15
Group activation rate (signup → create group)	> 40%
Members per group (invite conversion)	> 6
Net Promoter Score (NPS)	> 60
Group retention (still active at 3 months)	> 70%

Quick Wins (Do This Week)

1. **Set up WhatsApp Business** account for Komunity — start building the brand presence
2. **Create TikTok account** — Post 1 relatable stokvel drama video (no budget needed, just creativity)
3. **Join 5 Facebook stokvel groups** — Provide genuine value, mention Komunity naturally
4. **Email pitch to 3 journalists** at Daily Maverick, Moneyweb, and TechCabal with your story
5. **Create a referral incentive** on the waitlist page — "Share with 3 friends → skip the queue"
6. **Record a 60-second product demo** for LinkedIn/Instagram — show the transparent wallet in action
7. **Reach out to 10 church treasurers or stokvel admins** directly — offer free founding member access in exchange for a testimonial

Expansion Marketing Plan

Market	Timing	Key Adaptation
ZA South Africa	NOW	Stokvel/burial society messaging, Zulu/Xhosa/Sotho copy
zw Zimbabwe	Month 6	EcoCash integration emphasis, ROSCA groups
KE Kenya	Month 9	Chama groups, M-Pesa integration, SACCO market
NG Nigeria	Month 12	Ajo/Esusu groups, fintech-savvy market
GBUS Diaspora	Month 6	"Send support back home", SA/Zim expat communities

Brand Voice Guidelines

Dimension	Direction
Tone	Warm, community-centered, trustworthy, confident
Language	Plain English + local slang where appropriate (stokvel, chama, ajo, roscas)
Avoid	Corporate jargon, overly "tech startup" speak
Embrace	Ubuntu spirit — "I am because we are"
Visual Identity	Deep navy + purple gradient (premium, trustworthy), gold accents (African warmth)

Bottom line: Komunity's most powerful marketing is a community admin who shows their group "look, everyone can see everything now." That moment of trust is your product demo, your ad, and your referral mechanism all in one. Build every marketing tactic toward creating that moment.
